Area of Greatest Need Staff Football Program 96 Passenger Bus Field House Request A Call

Preferred Phone: _____ Preferred Email: _____

Signature: _____ Date: _____

Is there a teacher, class, or event that inspired your contribution?

The importance of doing what is best for every student we serve at Corvian guides our decisions. We do this by continually analyzing past outcomes, examining assessment data, and talking to members of our staff, students, and community.

The following goals are what we have determined will best benefit our students in 2021.

1. Corvian Community School wants to keep the best possible staff to serve our students. We will do this by giving staff bonuses and providing professional development.- \$100,000
2. Our transportation needs continue to increase as the school's population grows. We will need to purchase a 96 passenger bus. The bus will be used for field trips, athletics, etc. - \$100,000
3. We have built an amazing athletic complex that will bring our students and families together which is essential for the continued growth of our school. We can already see our community coming together as track and field, as well as soccer have been out practicing in full force. Adding football to our athletic program will bring a whole new level of excitement and buzz and put Corvian at the top of its game as it relates to academics and athletics. A football program is a costly endeavor but in order to be successful and competitive, we believe this journey will prove to be beneficial at every level.
4. Our field house will need equipment in anticipation of the football program. We will need cardio and strength and conditioning equipment, football equipment as well as equipment and materials for the trainer staff.
